2021 Fall Webinar Series

Over the past year, we have continued to present quality programs virtually. It has allowed us the opportunity to reach a broader audience and connect then with experts on a variety of topics. This October we continued with the “Meeting the Demands of Changing Climates” webinars. These webinar programs were free and open to the public and we encouraged student participation. The programs were recorded and can be found on the ARC YouTube page at www.adkresearch.org.

Watch for our **2022 Spring Webinar Series** on Fridays in March, 10:00-11:00.

The ARC's **Annual Awards Program** was held virtually in May. The Program was sponsored by the Adirondack Council and Paul Smith's College. The 2021 Elizabeth Thorndike Adirondack Achievement Award was presented to **Diane Fish** for her career dedicated to conservation and community in the Adirondacks. Diane was the Deputy Director of the Adirondack Council and retired earlier this year. To honor the legacy of our friend and colleague, the creation of the **Bill Porter Wildlife Forum** was also announced. It will be a panel discussion on wildlife related issues held each year in Bill's honor at the Annual Conference on the Adirondacks.

Please consider a **tax-deductible donation** today to support our work in the Adirondacks. Credit card payments and checks are welcome. Please visit our website at adkresearch.org to find out how you can contribute. Thank you!
